TIETUP SET FOR TUESDAY

Both Sides Reiterate Their
Stand for Planning for a
Finish Fight.

Union bricklayers made a concession yesterday to prevent a total tieup of about \$100,000,000 new construction in the city to-morrow, when a lockout against 5,000 mason workers is to be called by the Building Trades Employers Association.

Officials of the bricklayers' union announced that work on hospitals and schools will be exempted by the workers in their strike to force employers to discharge all hod carriers except those who take out cards in a new union chartered by the American Federation of Labor.

Walter V. Price, international representative of the bricklayers, said the union had refused to permit its members to strike on these two classes of construction, even where the contractors are employing hod carriers not affiliated with the new union. He said that men who had taken matters in their own hands and walked out have been ordered back to work.

The union leader named two specific instances in which bricklayers were commanded to return to work on schools and hospitals after they had gone on strike. One was Public School No. 57 in 114th street, and the other was a new hospital being constructed in Jamaica.

Unless the Building Trades Employers Association alters its determination, a complete halt in construction will result. Employers asserted that the only action that will avert a tieup is for the bricklayers' union to end by to-morrow morning all separated strikes in different sections.

C. G. Norman of the Building Trades Employers Association said that all bricklayers that reported for work to-morrow would be allowed to complete the day's labor while the association received reports as to whether the union complied with demands to stop the sporadic strikes. If the demands were not met, Mr. Norman said, all union masons on every construction job in New York will be discharged.

Both the employers and the workers expressed yesterday their determination not to yield to the demands of the other side. Union men said they would back their leaders to the end in the fight against employment by contractors of members of the "Independent" Hod Carriers Union.

"The bricklayers do not assume any responsibility for any of this trouble," Mr. Price said. "If the employers carry out their threat and declare the lockout they alone will be responsible for the situation, as the work on all buildings in the city, with the exception of three or four, is going on without any trouble. There won't be any trouble unless the employers create it."

BOOTLEGGERS LOSING DENATURED ALCOHOL

Appleby Revoking Permits
for Withdrawals.

Ninety-five per cent. of the 500,000 gallons of denatured alcohol withdrawn from bonded warehouses each month for the ostensible purpose of being used in the manufacture of drugs is being diverted to the bootleg trade, John D. Appleby, Prohibition Zone Chief, said last night.

"We are gradually closing in on the firms that are using their quota of alcohol for other than legitimate purposes," the supply of denatured alcohol is gradually being decreased, because of the numerous permit revocations that are being made. Of 405 applications for permits in the last two months I have refused 400. As a result of the decision of prohibition enforcement officers to investigate thoroughly individuals and firms applying for permits, the applications are becoming fewer and fewer."

"One instance of denatured alcohol being diverted to the manufacture of 'poison whiskey' is that of a firm that has been withdrawing 25,000 gallons a month, said Mr. Appleby. An effort was made to increase the quota to 75,000 gallons, he said. Investigation proved that the firm had used only 500 gallons for legitimate purposes and that the remaining 24,500 gallons had been sold to sixteen 'customers,' all owned by the firm. Permits of the firm and its sixteen 'customers' will be revoked, Mr. Appleby declared.

SONS OF REVOLUTION HEAR OF ADAMS'S WOES

Bayne Speaks at Evacuation
Day Exercises.

The Sons of the Revolution, with Robert Claypham, president, presiding, in the Hotel Plaza last evening celebrated the 125th anniversary of the evacuation of New York city by the British troops. Cecil F. Colton, secretary of the Association of American Horse Shows; George A. Wingate, Lawrence Fish, Richard Webster, John Brook, Lewis Wilson and Everts L. Prentiss were among those there.

Howard R. Bayne, former Senator, delivered a lecture on "The Administration of John Adams." He said in part: "One difficulty that Adams had to contend with through his administration was the antagonism excited over the approval by Washington of the treaty of commerce and amity with Great Britain, commonly known as Jay's treaty, which had been ratified between the prospective nations on October 24, 1794, and submitted to Congress by Washington after promulgation on March 11, 1796. Hamilton was stoned at a public meeting in New York while speaking in the open air. In Charlestown the British flag was trailed in the dust of the streets. Jay was denounced as a traitor and branded in effigy in many places. Washington upon his approval of the treaty was assailed with a storm of vituperation that had no parallel in American political history."

The affair was called a "victory dinner" and many leading Democrats of Westchester county attended.

Another, of veldyne, with braided waist, has double caracul chin collar and cuffs.

Glove Silk Bloomers at \$2

And he gave us 500 of his best bloomers at a very friendly concession in price. We pass the benefit along.

The bloomers are of an excellent quality of glove silk, well sewn, in flesh tint and orchid. Sizes 34 to 42.
